

Pesticide Registration Notice Status Report 1971-2012

PRN number	Title	Status	Reason	Topic	Related PRNs
71-1	Cancellation of registration under the FIFRA of products containing DDT	Historical	Cancellation of all DDT registrations	Registration	
71-2	Changes in registration requirements for ethyl parathion formulations	Archive/Old	New safety label for ethyl parathion formulations	Labeling	
71-3	Cancellation of registration of certain products bearing directions for use on food in the absence of finite tolerances or exemptions	Historical	Concepts of “no residue” and “zero tolerance” should be abandoned	Tolerances	
71-4	Cancellation of registration under FIFRA of products containing aldrin or dieldrin	Historical	Registrations of aldrin or dieldrin cancelled	Registration	
71-5	Cancellation of registration of dichloro diphenyl dichloroethane (TDE)	Historical	Registration of metabolite of DDT, dichlorodiphenyl dichloroethane (TDE) cancelled	Registration	71-1
71-6	Establishment of international units as the basis of expressing potency of products containing <i>Bacillus thuringiensis</i> Berliner	Superseded	IU used to express potency of <i>B. thuringiensis</i> Berliner products	Labeling	72-6
71-7	Rescinding of PR Notices 70-23 and 70-27	Archive/Old	Rescinds two PRNs	Registration	70-23 and 70-27
71-8	Change in designation of registration number issued under the FIFRA	Historical	Registration number changed from USDA to EPA	Registration/labeling	

PRN number	Title	Status	Reason	Topic	Related PRNs
72-1	Change in EPA registration number of labels of certain products	Historical	Supplemental labeling bear number assigned to firm (distributor) as part of EPA registration number	Registration/Labeling	
72-2	Suspension of registration for certain products containing sodium fluoroacetate (1080), strychnine and sodium cyanide	Archive/Old	Use in prairie and rangeland areas for predator and rodent control	Registration	
72-3	Suspension of registration for all products containing thallium sulfate	Archive/Old	Thallium bootlegging and reports of eagle kills	Registration	
72-4	Cancellation of registration of certain products bearing directions for use on food in the absence of finite tolerances or exemptions	Archive/Old	Phase out of no-residue, zero tolerance concept	Registration	68-6, 69-4, 70-4, 71-3
72-5	Cancellation of registration for certain products containing mercury	Archive/Old	Mercury algicide uses in aquatic environments	Registration	
72-6	Change in standard for expressing potency of products containing <i>Bacillus thuringiensis</i> Berliner	Archive/Old	Adoption of IU as basis for expressing insecticidal efficacy	International standard	71-6

PRN number	Title	Status	Reason	Topic	Related PRNs
73-1	Tank mixes and serial applications – interpretation of the amended FIFRA	Archive/Old	Mixes and applications registered by a State will not be uses inconsistent with the label	Labeling	
73-1A	Tank mixes and serial applications – interpretation of the amended FIFRA	Archive/Old	Correction of PRN 73-1	Labeling	73-1
73-2	Residual insecticides in food handling establishments	Archive/Old	Policy in FRN – residue studies	Study guidelines	
73-3	Cancellation of registration of certain products bearing directions for use on food in the absence of finite tolerances or exemptions	Archive/Old	List of pesticide use patterns not supported by finite tolerances, exemptions, or interim tolerances	Registration	
73-4	Residual insecticides in food handling establishments	Archive/Old	Definition of certain terms	Labeling	
73-5	Notice of intent to cancel registration of quaternary ammonium compounds bearing directions for use in poultry drinking water	Archive/Old	Phase out of no residue or zero tolerance	Registration/Labeling	

PRN number	Title	Status	Reason	Topic	Related PRNs
74-1	Consideration of data in support of registration applications; interim agency policy	Archive/Old	Compensation claims	Registration	
74-2	Alternate formulations with differing inert ingredients; change in policy	Archive/Old	Shortages of inert ingredients	Registration	
74-3	New address and mailing code	Archive/Old	RD moves from Agriculture building to Waterside Mall	Registration	
74-4	Pesticides containing vinyl chloride	Archive/Old	Exposure to propellants	Registration	
74-5	Emergency suspension order concerning registration of certain products containing vinyl chloride and notice of intent to cancel	Archive/Old	Vinyl chloride in active and inert ingredients	Suspension/Registration	
74-6	Residual insecticides in food handling establishments	Archive/Old	Modify and clarify PRN	Labeling	73-4
74-7	Metaldehyde snail and slug baits	Archive/Old	Studies on attractiveness to dogs required	Labeling	
74-8	Notice of intent to cancel registration of pesticides containing tetraethyl pyrophosphate bearing directions for use on hops	Archive/Old	Cancellation	Registration	
74-9	Notice of intent to cancel registration of pesticides containing binapacryl bearing directions for use on apples, grapes, and pears	Archive/Old	Cancellation	Registration	
74-10	Federal requirements for registration of intrastate pesticides	Archive/Old	Application for federal registration for intrastate pesticides	Registration	
74-11	Notice of intent to cancel registration of certain chlordane and heptachlor products	Archive/Old	Cancellation	Registration	

PRN number	Title	Status	Reason	Topic	Related PRNs
75-1	Registration applications	Archive/Old	Final regulations to implement FIFRA section 3	Registration	
75-2	Federal requirements for registration of intrastate pesticides	Archive/Old	40 CFR 162.17	Registration	
75-3	Applications for supplemental registration of distributors	Archive/Old	40 CFR 162.6(b)(4)	Registration	
75-4	New procedure affecting application for registration of Archive/Old pesticide products	Archive/Old	Superseded by 152.105 regulations	Registration	
75-5	Unacceptable use of the word "chlorine" in the name and labeling of pesticides	Archive/Old	Misbranding according to FIFRA section 2(q)(1)(A)	Registration/Labeling	
75-6	Fluorocarbons used as aerosol propellants	Historical	Ozone layer protection using alternate propellants	Registration	

PRN number	Title	Status	Reason	Topic	Related PRNs
76-1	Registration applications – procedures and policies concerning section 3(c)(1)(D) of the FIFRA	Archive/Old	Amendment of 1972 FIFRA	Registration	
76-2	Regional assistance to registrants	Archive/Old		Registration	
76-3	Chlorofluorocarbons used as aerosol propellants	Rescinded	Ozone layer protection using alternate propellants	Labeling	75-6, 78-3

PRN number	Title	Status	Reason	Topic	Related PRNs
77-1	Permissible labeling statement pertaining to chlorofluorocarbons in aerosol pesticide products	Rescinded	Ozone layer protection using alternate propellants	Labeling	78-3
77-2	Submission of information regarding possible adverse effects of pesticides	Archive/Old	Development of comprehensive chemical standard as basis for registration and re-registration	Registration	
77-3	Issuance of state registrations to third parties under section 24(c) of FIFRA	Archive/Old	State registrations for special local needs by third parties need to notify original registrant	Registration	
77-4	Criteria for waiver of fees associated with tolerance petitions	Archive/Old	Policy regarding fee waiver requests according to 40 CFR 180.33	Tolerances	
77-5	Persons responsible for retention of pesticide testing data	Archive/Old	Records containing research data includes tests submitted to support registration	Registration	

PRN number	Title	Status	Reason	Topic	Related PRNs
78-1	Classification procedures for restricted use pesticides	Archive/Old		Labeling	
78-2	Cancellation and phase-out of products containing heptachlor and chlordane	Archive/Old	Use restrictions	Registration	
78-3	Ban on manufacture, processing and distribution of certain chlorofluorocarbon propellants	Archive/Old	Non-essential aerosol uses in pesticide propellants	Registration	75-6, 76-3, 77-1
78-4	Extension of PR notice 77-1	Archive/Old	Propellants with fluorocarbons	Labeling	78-3
78-5	Policy and procedures for registration of identical or substantially similar product and new uses of previously registered products in compliance with the Federal Pesticide Act of 1978	Historical	FIFRA amendments requiring implementation	Registration	
78-6	EPA personnel contacts for assistance on matters pertaining to registration actions including: section 3 registrations, special local need registrations, and experimental use permits	Archive/Old	Contacts per amended FIFRA	Registration	

PRN number	Title	Status	Reason	Topic	Related PRNs
79-1	Legal restrictions on issuance of registrations	Archive/Old	Injunctions and stipulations	Registration	
79-2	Elimination of authorization for confidential formula statement clarification	Archive/Old	Data entitled to exclusive use protection	Registration	

PRN number	Title	Status	Reason	Topic	Related PRNs
80-1	Label improvement program	Archive/Old	1972 amendments to FIFRA provided new authority over the use of pesticides	Labeling	
80-2	Label improvement program: deletion of salt water emesis statements	Archive/Old	Agents to induce vomiting	Labeling	

PRN number	Title	Status	Reason	Topic	Related PRNs
81-1	Special packaging clarification of policy issues	Archive/Old	Child-resistant packaging, 40 CFR 162.16	Registration/Labeling	
81-2	Rotational crop clearances	Archive/Old	Pesticide residues and other indirect or inadvertent residues	Tolerances	
81-3	Label improvement program: change in test methods for and categorization of eye irritations	Archive/Old	New testing methods for and categorization of eye irritation	Labeling	
81-4	Label improvement program: label revisions to accommodate new AOAC methods of chemical analysis	Archive/Old	Ingredients statements reflect percentages determined by most specific chemical analytical techniques	Labeling	

PRN number	Title	Status	Reason	Topic	Related PRNs
82-1	Revised policy on label claims for tank mixing	Archive/Old	Approval of tank mix claims	Labeling	
82-2	Change in procedures for approval of applications	Archive/Old	Conditions of registration and final printed labeling	Registration/Labeling	
82-3	Change in procedure for supplemental registration of distributors	Archive/Old	Elimination of review and prior approval for supplemental registrations	Registration	

PRN number	Title	Status	Reason	Topic	Related PRNs
83-1	Compensation for use of data: applications submitted under the cite-all method of support	Archive/Old	Court case decided EPA may not require applicants cite and offer to pay compensation for all data relevant to application	Registration	
83-2	None	Archive/Old	Farmworker Safety Label Improvement Program requires precautionary language	Labeling/Registration	
83-3	Label Improvement Program – storage and disposal label statements	Archive/Old	Updated storage and disposal statements for consistency in labeling	Labeling/Registration	
83-4	Interim procedures for satisfying registration data requirements under recent court decisions	Superseded	Owner submission method to provide data to support applications	Registration	84-4
83-5	Tamper-proof bait boxes	Archive/Old	Use directions pending information gathering activities	Labeling	

PRN number	Title	Status	Reason	Topic	Related PRNs
84-1	Clarification of Label Improvement Program for farmworker safety and pesticide storage and disposal instructions	Archive/Old	Clarifying “release for shipment” and storage and disposal instructions	Labeling	83-2, 83-3
84-2	EPA policy regarding the use of section 18 emergency exemptions and section 24(c) state issued special local need registrations	Archive/Old	Acceptance criteria used to evaluate state submission	Registration	
84-3	Distribution of the 8 th edition of pesticide data submitters list	Archive/Old	Registrants requiring notification and offered compensation for use of their data	Registration	
84-4	Revised procedures for data support requirements under FIFRA	Revised	Applicants permitted to use citation of data with offer to pay	Registration	85-3
84-5	Label improvement program for fumigants	Archive/Old	Additional precautionary and other statements for fumigants	Labeling / Registration	

PRN number	Title	Status	Reason	Topic	Related PRNs
85-1	Transfer of FIFRA confidential business information to the California department of food and agriculture	Archive/Old	Registration numbers and inert ingredients for products registered federally and also registered by the state for use within the state	Inert ingredients	
85-2	Analytical methods for enforcement of residue tolerances – policy on releasability	Archive/Old	Petitions for permanent or temporary tolerances and requests for section 18 emergency exemptions	Tolerances	
85-3	Effective date of data compensation procedures under FIFRA	Archive/Old	Changes to procedures and revised forms for use by applicants	Registration	
85-4	Communication between registrants and the Office of Pesticide Programs prior to and during chemical/product review	Archive/Old	Contact information for pending registration actions	Registration	
85-5	Policy regarding time extensions for submitting additional data to support existing registrations	Archive/Old	Data call-in	Registration	
85-6	Clarification of label improvement program for fumigants: revision of PR Notice 84-5	Archive/Old	Revisions to precautionary and other statements for fumigants	Labeling	84-5
85-7	Policy regarding disclosure of reviews of pesticide test data	Archive/Old	Agency required to share data reviews with interested parties	Registration	

PRN number	Title	Status	Reason	Topic	Related PRNs
86-1	Procedures for Submission of Fees Associated with Tolerance Petitions	Archive/Old	New mailing address for submitting fees for tolerance petitions.	Tolerances	
86-2	Maintenance of Records	Archive/Old	Instances of records not being maintained according to law	Registration	
86-3	Distribution of 9 th Edition of Pesticide Data Submitters List	Archive/Old	New data submitters	Registration	
86-4	Submission of Incomplete Applications for Registration of Pesticides Under Section 3 of FIFRA	Archive/Old	New EPA policy not to accept or process such applications.	Registration	
86-5	Standard Format for Data Submitted under FIFRA and Certain Provisions of FFDCA.	Archive/Old	OPP's making these requirements mandatory.	Registration	

PRN number	Title	Status	Reason	Topic	Related PRNs
87-1	Label Improvement Program for Pesticides Applied through Irrigation Systems (Chemigation)	Archive/Old	To upgrade, improve or revise in order to meet current labeling standards	Labeling	
87-2	Distribution of 10 th Edition of Pesticide Data Submitters List	Archive/Old	To assist pesticide applicants and aid registrants who wish to be compensated for use of their data.	Registration	
87-3	Deletion of Rotational Crop Restrictions from Labeling	Archive/Old	A lack of adequate uptake data for rotational crops.	Labeling/ Registration	
87-4	Labeling of pesticides registered for forest uses or control/eradication of mosquito larvae	Archive/Old	To prohibit use of such pesticides in range of endangered and threatened species.	Labeling	88-1
87-5	Labeling of pesticides registered for range/pastureland uses on corn, wheat, soybeans, sorghum, oats, barley, rye, cotton	Archive/Old	To prohibit use of such pesticides in range of endangered and threatened species.	Labeling	88-1
87-6	Inert Ingredients in Pesticide Products: Policy Statement	Archive/Old	To add a label statement identifying inert ingredients of toxicological concern	Labeling	90-1
87-7	Revised policy of required registration of a pesticide transferred under contract to another producer.	Archive/Old	To establish that such a transfer is illegal unless the pesticide is or is about to be registered.	Registration	
87-8	Label Improvement Program—Required Labeling for Products Containing Flammable Propellants.	Archive/Old	To add flammability warnings to labels of products containing propane, butane, isobutane and/or dimethyl ether.	Labeling	87-11
87-9	Acknowledgement of receipt of applications and petitions.	Archive/Old	To acknowledge receipt if an applicant submits a stamped, self-addressed postcard.	Registration	
87-10	Pathology raw data definition as It Relates to Pathology Data Trails and Independent Pathology Peer Review system.	Archive/Old	To clarify the meaning of <i>raw data</i> in pathology and OPTS' policy on the audit trail, and to recommend independent peer review.	Procedure	
87-11	Withdrawal of PR Notice 87-8	Archive/Old	Inability to define the scope of the hazard of flammable hydrocarbon propellants.	Label	87-8

PRN number	Title	Status	Reason	Topic	Related PRNs
88-1	Withdrawal of PR Notices 87-4, 87-5	Archive/Old	The information in the related PRNs may have limited use of pesticides beyond what was necessary to ensure protection of species	Labeling	87-4 87-5
88-2	Clustering of Quaternary Ammonium Compounds	Archive/Old	To build a data base that will support continued registration of the compounds	Registration	
88-3	Requirement to Submit Applications for Federal Registration of Intrastate Products	Archive/Old	To promulgate a final rule to submit applications for full federal registration no later than July 31, 1988.	Registration	88-7
88-4	Procedures for Submission of Fees Associated with Applications for Registration, Amended Registration, Experimental Use Permits and Resubmission of Unacceptable or Withdrawn Applications	Archive/Old	To make the final rule effective on a weekday instead of a weekend date.	Registration	
88-5	Tolerance Enforcement Methods—Independent Laboratory Confirmation by Petitioner	Archive/Old	To inform petitioners that without such information, a petition will be considered incomplete and returned without further review.	Registration	96-1
88-6	Change in Registration Procedures—Agency Approval Not Required for Certain Amendments	Archive/Old	To explain new procedures that include allowing certain registration amendments by notification only	Registration	95-2
88-7	Final Rule Requiring Registration of Intrastate Products—Rescission of 88-3.	Archive/Old	To include registration procedures in 88-3.	Registration	88-3
88-8	Reorganization of the Office of Pesticide Programs.	Archive/Old	To increase the number of OPP divisions and decrease their size.	Administration	

PRN number	Title	Status	Reason	Topic	Related PRNs
89-1	New Instructions for Sending Mail and Delivering Materials to the Office of Pesticide Programs	Archive/Old	To facilitate sorting, processing and routing mail that is received in OPP	Registration	91-5
89-2	Expedited Review of Applications for Registration or Amended Registration	Archive/Old	To expedite the review of applications for registration or amendment of products similar to already registered products	Registration	
89-3	Format Standards for Reregistration Phase 3 Summaries and Re-formatted Versions of Studies Previously Submitted under FIFRA and certain provisions of FFDCA	Archive/Old	To define standard formats for summaries and re-formatted versions of previously submitted studies	Registration.	

PRN number	Title	Status	Reason	Topic	Related PRNs
90-1	Inert Ingredients in Pesticide Products: Revised Policy Statement	Archive/Old	Registrants of products containing two ingredients of toxicological concern, Di-(2-ethylhexyl)adipate and dimethyl-formamide (DMF), will be required to submit applications to amend their registrations and add a label statement identifying the ingredient(s)	Registration/Labeling	87-6
90-2	Revision to Procedures for Modifying Existing Registrations by the Notification Process	Archive/Old	More detailed explanations of actions, more stringent administrative requirements, a self-checking list for registrants and requirement that every notification carry a certification-of-compliance statement.	Registration	88-6
90-3	Announcement of the Formation of an Industry-wide Spray Drift Task Force	Archive/Old	To share the cost of developing a generic spray drift data base expected to satisfy spray-drift data and requirements for registrations in the U.S. and Canada.	Registration	
90-4	Distribution of the 12 th Edition of Pesticide Data Submitters List	Archive/Old	To reflect pesticide data submitters are of March 1990.	Registration	

PRN number	Title	Status	Reason	Topic	Related PRNs
91-1	Procedures for Voluntarily Requesting Deletion of Approved Uses from Registered Labels	Archive/Old	Safety	Registration/ Labeling	95-2
91-2	Accuracy of Stated Percentages for Ingredients Statement	Archive/Old	To establish percentage by weight as the label statement of the nominal concentration of an ingredient.	Labeling	
91-3	Reorganization of the OPP Reregistration Division	Archive/Old	To increase the number of Product Management Teams from nine to eleven	Administration	
91-4	Notice to Manufacturers, Formulators, Producers and Registrants of Pesticide Products	Archive/Old	To require registrants of products containing DEET to revise labeling for such products to include additional use directions.	Labeling	
91-5	Instructions for Transmitting Information to the OPP	Archive/Old	To update instructions for sending or delivering mail and to caution against faxing CBI.	Administration	89-1
91-6	EPA Policy Regarding Requests to Withdraw Authorization to Cite Data	Archive/Old	To give registrants and others owning rights in originally submitted data to withdraw authorization to cite data providing that the parties agree.	Administration	
91-7	False and Misleading Statements	Archive/Old	To articulate EPA policy respecting use of label claims and similar unquantified claims of heightened efficacy.		93-6
91-8	Revised Policy to Provide Applicants and Other than Basic Manufacturers an Opportunity to Submit Generic Data and Receive Compensation for It	Archive/Old	To allow persons other than basic registrants to generate and submit generic data to support registration and reregistration.	Registration/ Labeling	94-1

PRN number	Title	Status	Reason	Topic	Related PRNs
92-1	Requirement to Submit and Identify Adverse Effects Information.	Archive/Old	To clarify OPP policy regarding submittal and identification of adverse-effects information, particularly those cited in certain toxicology guidelines	Registration	
92-2	Permissible Label Claims Regarding Ozone Depleting Substances	Archive/Old	To allow certain labeling claims that products don't contain CFC.	Labeling	77-1
92-3	Pesticides and the Clean Air Act: Stratospheric Ozone Protection	Archive/Old	To alert registrants of new Clean Air Act provisions regarding CFCs, HCFCs, carbon tetrachloride and methyl chloroform.	Registration	93-4, 93-5
92-4	Material Safety Data Sheets as Pesticide Labeling	Archive/Old	To describe EPA's interpretation that an MSDS may accompany a pesticide or device without EPA approval as long as it doesn't conflict with approved labeling.	Labeling	
92-5	Product Chemistry Data Requirements for Registration and Reregistration of End-Use Products	Archive/Old	To abandon color and odor data in making regulatory judgments about risks and benefits of end-use products if they don't affect performance.	Registration	
92-6	False and Misleading Statements Related to Efficacy; Amendment to PR Notice 91-7	Archive/Old	To allow time to consider comments received on PR Notice 91-7 requesting that registrants remove false and misleading label claims of heightened efficiency.	Registration	91-7 93-6

PRN number	Title	Status	Reason	Topic	Related PRNs
93-1	Statement of Restricted-Use Classification	Archive/Old	To make restricted-use statements on labels conform to law and avoid confusion due to inconsistent placement and variations in wording.	Labeling	
93-2	Waiver of Crop-Field Trial Data for Aerial Applications	Archive/Old	EPA conclusion that crop-field trials involving application with ground equipment are adequate to register use of aerial equipment.	Crop-field trials	
93-3	Labeling Statement Prohibiting Application to Water	Archive/Old	To eliminate <i>wetlands</i> from labels to avoid confusion over the term.	Labeling	
93-4	Ban on aerosol products containing CFCs and HCFCs under the Clean Air Act	Archive/Old	To alert registrant of upcoming enforcement dates	Registration	92-3 93-5
93-5	Labeling Requirements of the Clean Air Act	Archive/Old	To explain in greater detail Clean Air Act label requirements for ozone-depleting products	Labeling	92-3, 93-4
93-6	False or Misleading Statements Related to Efficacy; Revision of PR Notice 91-7.	Archive/Old	To clarify EPA policy pertaining to certain claims for pesticide products of heightened efficacy	Labeling	91-7
93-7	Labeling Revisions Required by the Worker Protection Standard	Archive/Old	To determine whether WPS pertains to end-use products on agricultural plants or in forests, nurseries of greenhouses.	Labeling	83-2 93-11
93-8	Labeling Statement Prohibiting Application to Water; Amendment to P.R. Notice 93-3	Archive/Old	To add to 93-3 whether the term <i>terrestrial uses</i> may be omitted and whether the term <i>do not apply directly water</i> may be used	Labeling	93-3
93-9	Voluntary Reduced-Risk Pesticides Initiative	Archive/Old	To encourage registration of lower-risk pesticides containing new active ingredients	Registration	97-3
93-10	Effluent Discharge Labeling Statements	Archive/Old	To modify effluent discharge labeling statements to take into consideration that some EPA regions and states did not list products in National Pollutant Discharge Elimination System permits due to the number of dischargers overseen	Labeling	
93-11	Supplemental Guidance for PR Notice 93-7—Labeling Revisions Required for WPS	Archive/Old	To identify options that registrants may choose to allow efficient production and distribution of products.	Labeling	93-7

PRN number	Title	Status	Reason	Topic	Related PRNs
93-12	Status of Dried Hops under FFDCA	Archive/Old	To consider hops for regulatory purposes as a raw agricultural commodity in both fresh and dried forms	Regulation	

PRN number	Title	Status	Reason	Topic	Related PRNs
94-1	Withdrawal of PR Notice 91-8	Archive/Old	To assure that MP registrants should be able to control the uses made of their products by controlling the MP label	Registration/ Labeling	91-8
94-2	Recycling Empty Aerosol Pesticide Containers	Archive/Old	Environmental and economic benefits	Labeling	
94-3	How to Obtain Information from OPP	Archive/Old	To reflect OPP's commitment to improve communications with registrants and others	Registration	
94-4	Interim Measures for Registration of Antimicrobial Products/Liquid Chemical Germicides with Medical Device-Use Claims under the Memorandum of Understanding between EPA and FDA	Archive/Old	EPA has regulatory authority over antimicrobial products that bear claims to act against microorganisms on inanimate surfaces; FDA regulates liquid chemical germicides used on medical devices.	Regulation	98-2
94-5	Requests for Reconsiderations of Carcinogenicity Peer-Review Decisions Based on Changes in Pathology Diagnoses.	Archive/Old	To set forth a procedure for submittal to EPA of pathology re-reads	Regulation	
94-6	Pesticide Products Registered for Use on Humans to Control Lice (Pediculicides)	Archive/Old	To alert pesticide registrants to an FDA rule establishing conditions for safe and effective use of pediculicide drugs	Registration	
94-7	Label Improvement Program for Revision of Use Directions for Commensal Rodenticides and Statement of EPA Policies on Use of Rodenticide Bait Stations.	Archive/Old	To require registrants of certain pesticide products claimed to control commensal rodents to bear certain warning statements concerning <i>tamper-resistant bait stations</i>	Registration	83-5
94-8	Water-Soluble Packaging	Archive/Old	To streamline requirements for registration of WSP products because of their potential to reduce risks for pesticide handlers and reducing the number of conventional pesticide containers requiring cleaning before disposal	Registration	
94-9	Announcing Formation of Two Industry-Wide Task Forces: Agricultural Reentry Exposure Task Force and Outdoor Residential Exposure Task Force.	Archive/Old	To share the cost of developing generic exposure data.	Registration	

PRN number	Title	Status	Reason	Topic	Related PRNs
95-1	Effluent Discharge Labeling Statements	Archive/Old	To exempt certain products from bearing such statements specified in PR 93-10 because of state and local measures already in place.	Labeling	93-10
95-2	Notifications, Non-Notifications and Minor-Formulation Amendments	Archive/Old	To help streamline and accelerate many registration amendments.	Registration	83-3 84-1 88-6
95-3	Reduction of Worker Protection Standard Interim Restricted Entry Intervals for Certain Low-Risk Pesticides	Archive/Old	To permit registrants to reduce interims in cases where active ingredients met low-toxicity criteria.	Registration	
95-4	Regulatory Status of Methyl Bromide and Priority Review of Methyl Bromide Alternatives	Archive/Old	EPA regulatory changes will affect the continued availability of methyl bromide, which is subject to regulation as an ozone-depleting chemical.	Registration	
98-5	Labeling Revisions Required by the Worker Protection Standard for Sale or Distribution of Certain Agricultural Pesticides After October 23, 1995.	Archive/Old	To provide guidance to people who sell or distribute pesticides on how to recognize products that don't comply with WPS requirements and how to bring applicable product labels into compliance with RPS requirements.	Registration	
95-6	New Chemical, New Use and Experimental Use Priorities for Conventional Pesticides	Archive/Old	To describe new policies and procedure that will help prioritize and schedule new chemical, new use and EUP registration actions for conventional pesticides.	Registration	

PRN number	Title	Status	Reason	Topic	Related PRNs
96-1	Tolerance Enforcement Methods—Independent Laboratory Validation by Petitioner	Archive/Old	To clarify requirements for submittal of an Independent Laboratory Validation to accompany new pesticide analytical methods	Registration/Tolerances	88-5
96-2	Changes to Child-Resistant Packaging (CRP) Testing Requirements	Archive/Old	To explain Consumer Product Safety Commission revisions in its CRP packaging standards and testing procedures	Packaging	
96-3	Pesticide Products Used to Disinfect Aircraft	Archive/Old	Doubts that the benefits of such spraying exceed the risks.	Labeling	
96-4	Label Statements Involving Product Efficacy and Potential for Harm to Property	Archive/Old	To correct a misunderstanding regarding FIFRA label approval process and efficacy claims reflected in a series of court decisions concerning the law's preemptive effect	Labeling	
96-5	Interim Use of Proposed Guidelines for Carcinogen Risk Assessment	Archive/Old	To explain that before the guidelines become final, OPP will apply them case-by-case only	Risk Assessment	
96-6	Pet Pesticide Product Label Statements	Archive/Old	To minimize misuse and thus reduce potential risk of effects on dogs, cats and humans	Labeling	
96-7	Termiticide Labeling	Archive/Old	Label changes to reduce risk while maintaining efficacy	Labeling	
96-8	Toxicologically Significant Level of Pesticide Active Ingredients	Archive/Old	To provide risk-based concentration levels of contaminants that will generally be considered toxicologically significant.	Registration	

PRN number	Title	Status	Reason	Topic	Related PRNs
97-1	Agency Actions under the Requirement of the Food Quality Protection Act	Archive/Old	To encourage applicants and petitioners to provide supplemental information to the Agency, even though not required to do so.	Registration	
97-2	New Chemical, New Use, EUP, Non-Fast Track Amendments and Ingredient Registration Priorities for Conventional Pesticides	Archive/Old	To help prioritize and schedule applications for permits.	Registration	
97-3	Guidelines for Expedited Review of Conventional Pesticides under the Reduce-Risk Initiative and for Biological Pesticides	Archive/Old	To supersede reduced-risk criteria, define types of pesticide products reviewed by BPPD and describe how an applicant can apply for biochemical pesticide classification.	Registration	93-9
97-4	Consumer Access Numbers on Pesticide Labels	Archive/Old	To encourage labels that include telephone numbers, internet addresses and the number of the National Pesticide Telecommunications Network hotline.	Labeling	
97-5	Use of Common Names for Active Ingredients on Pesticide Labeling.	Archive/Old	Common names are more recognizable than scientific names, which are long and often familiar only to those with a technical background.	Labeling	
97-6	Use of Term <i>Inert</i> in the Label Ingredients Statement	Archive/Old	To encourage listings of inert ingredients because they aren't necessarily benign to the environment.	Labeling	
97-7	Existing Stocks for Labeling Changes in PR Notices	Archive/Old	To streamline the process for the Agency, registrants and supplemental distributors	Labeling	
97-8	Time Extension of PR Notice 96-7—Termiticide Labeling	Archive/Old	To grant a 90-day extension because many registrants have termiticide products ready for distribution but which don't comply with labeling requirements in 96-7	Labeling	96-7
97-9	Electronic Submission of Child-Resistant Packaging of Prefilled, Non-refillable Insecticide Bait Stations Not Designed or Intended to be Opened or Activated in a Manner that Exposes the Contents to Human Contact	Archive/Old	To expedite CRP protocol test data review	Packaging	

PRN number	Title	Status	Reason	Topic	Related PRNs
98-1	Self-Certification of Product Chemistry Data	Archive/Old	To simplify and accelerate the processing of applications for registration and reregistration while maintaining protection of public health and the environment	Registration	
98-2	Liquid Chemical Sterilant Products	Archive/Old	To inform registrants of liquid chemical sterilant products how to ensure that they remain in compliance with FIFRA as the law still applies to them	Registration	94-4
98-3	Guidance on Final FIFRA Section 6(a)(2) Regulations for Pesticide Product Registrants	Archive/Old	To provide registrants comprehensive guidance on implementing the new regulations.	Registration	98-4
98-4	Additional Guidance on Final FIFRA Section 6(a)(2) Regulations for Pesticide Product Registrants	Archive/Old	To notify registrants of the elimination of a specific reporting requirement for a period of at least one year	Registration	98-3
98-5	New Forms for the Certification with Respect to Citation of Data	Archive/Old	Announcement of new forms for citation of data to support registration or reregistration	Registration	
98-6	Flammability Labeling Requirements for Total-Release Fogger Pesticides	Archive/Old	To describe new labeling requirements for total-release foggers containing a propellant with a flash point at least or below 2 degrees Fahrenheit, and provides procedures and time frame for compliance.	Labeling	
98-7	Changes to Registration Priority System Involving Organophosphate (OP) Alternatives and Reduced Risk Candidates	Archive/Old	It may be important to have as many OP alternatives in the market as possible.	Registration	
98-8	Waiver of Fees Associated with Tolerance Objections	Archive/Old	In EPA's 30-year history of administering tolerance authority, objections to actions have rarely been filed and thus objection fees rarely submitted	Tolerances	
98-9	Modification of Respirator Statements for Pesticide Product Labels.	Archive/Old	Because the National Institute of Occupational Safety and Health has revised respirator standards for particular filters.	Labeling	
98-10	Notifications, Non-Notifications and Minor Formulation Amendments.	Archive/Old	To expand changes to registration which may be made by notification and non-notification of antimicrobial products.	Notification	

PRN number	Title	Status	Reason	Topic	Related PRNs
99-1	Import of Unregistered Pesticides Intended for Export	Archive/Old	To clarify if a pesticide or unregistered active ingredient is being imported for the sole purpose of meeting the specifications of a foreign purchase, such an import is permitted.	Import/ Export	

PRN number	Title	Status	Reason	Topic	Related PRNs
2000-1	Applicability of the Treated Articles Exemption to Antimicrobial Pesticides	Archive/Old	To clarify current EPA policy with respect to the scope of the <i>treated articles exemption</i> covering qualifying treated articles and substances bearing claims to protect the article or substance itself.	Labeling	2000-3 2000-10
2000-2	The FIFRA Endangered Species Task Force	Archive/Old	To impose data requirements on endangered species locations as part of each registration wherever appropriate	Registration	
2000-3	First Aid Statements on Pesticide Product Labels	Archive/Old	To update first-aid language on all pesticide product labels	Labeling	2001-1
2000-4	Instructions for Transmitting Information to the OPP	Archive/Old	To update instructions for sending or delivering mail to OPP and to caution against transmitting Confidential Business Information of Fax machines.	Procedure	
2000-5	Guidance for Mandatory and Advisory Labeling Statements	Archive/Old	To improve clarity of labeling statements in order to avoid confusing directions and precautions, and pesticide misuse	Labeling	
2000-6	Maximum Risk Pesticides Exempted under FIFRA Section 25(b) Clarification of Issues	Archive/Old	To clarify exemptions regarding composition, labeling, food tolerances and state regulations.	Regulatory	
2000-7	The Non-Dietary Exposure Task Force	Archive/Old	To develop residential indoor exposure data for pesticides containing one or more of the active ingredients synthetic pyrethroids, pyrethrum and synergists.	Regulatory	
2000-8	Reportability of Attorneys' Opinions and Conclusions under 40 CFR Part 159 and FIFRA 6(a)(2)	Archive/Old	To inform registrants of EPA's opinion that an attorney's professional legal judgment is not an opinion or conclusion reportable under 40 CFR Part 159.	Procedural
